

MISSION STATEMENT

Increase awareness and need of community involvement in dealing with mental illness. Children's mental health treatment centres such as Maryvale suffer from years of underfunding

Provide mental health education to our youth (*strategically targeted group ages 16-25*)

Reduce risk of developing mental illness or of becoming so desperate as to contemplate suicide

Defeat the stigma that has bigoted people's attitudes and fed the discrimination that many have endured

Overcome the enigma - allow people to feel comfortable talking about mental illness like any other disease

Critically examine the overall funding of our mental healthcare system and help develop and implement strategies for much needed future changes (*mental healthcare remains underfunded and underserved province wide*)

TICKET & SPONSORSHIP ORDER FORM

TICKETS: \$150 | TABLE OF 10: \$1300
